## DEVELOPMENT SKILLS

JavaScript (ES6), TypeScript, HTML5, CSS3/Sass, Bootstrap, Materialize, React.js, Github, MySQL, Firebase, Node.js, MongoDB, MS Office Suite, Adobe Creative Suite

## EDUCATION

### The University of Texas at Austin

August 2017 - May 2018

Full Stack Web Development Program

An intense full-stack development program dedicated to designing and building web applications

### The University of Texas at Austin

August 2013 – May 2016

Bachelor of Science in Communications

McCombs Business Foundations, 30 hours

## PROJECTS

### Live Athlete

- Live Athlete is a social platform that connects amateur and collegiate athletes with certified agents. Live Athlete centralized platform allows agents and players research and contact anyone they are considering working with.
- Lead front-end developer in a group of four.
- <https://gitdarren.github.io/LiveAthlete/>

### Donation Location

- An application that allows individual users and non-profit organizations to post donations or request donations. This full-stack site takes in posts/donations from users and then allows organizations to respond if they need that item.
- Lead front-end developer in a group of 3
- <http://www.dolo.io/>

### Weather App

- A simple weather application that lets the user search weather conditions for a specific city.
- It uses the OpenWeatherMap API to get the forecasted weather and GoogleMaps API to load a background map of the city searched.
- Sole developer
- <https://preston-weather-app.herokuapp.com/>

## RELEVANT EXPERIENCE

### Logistics and Operations Coordinator

Luxe

August 2016 – June 2017

- Oversaw quality assurance and troubleshooting for our proprietary, in-house built logistics platform and app.
- Responsible for the day-to-day live operations, which included the managing of a large workforce, strategic problem solving, lot and asset inventory, customer escalations and in-field troubleshooting.
- Communicated cross functionally with 5 city operations teams, in field supervisors and General Managers, overseeing an internal dispatch system to manage everyday logistics.
- Managed incoming calls and was responsible for solving the technical support needs of our customers and employees.
- Worked closely with product and engineering teams to constantly improve our internal processes and software.

### Marketing Intern

AGLIFF International Film Festival

- Updated and managed the AGLIFF website and social media accounts.
- Created advertising materials for marketing and social media campaigns to attract target markets.
